MONITOR ANY PIVOT, ANYTIME, ANYWHERE.

Irrigation monitoring is more accessible than ever before. Now available in North America, FieldNET Pivot Watch™ enables any pivot, anytime, anywhere, to be remotely checked with a mobile device. Compatible with your current equipment, simple to set up, and wallet-friendly, FieldNET Pivot Watch helps you save time and money.

This groundbreaking technology easily straps to the span pipe of your irrigation system, providing round-the-clock visibility of the pivot's position, direction and speed, and giving you ability to spot performance issues right away. FieldNET Pivot Watch also gives you access to automated, science-based irrigation scheduling recommendations through FieldNET Advisor® helping you know exactly when, where and how much to irrigate.
